Convert a DOC file into the PDF format

Note 1: The paper must strictly follow the template regulation of IPTA 2008. Note 2: It is recommended that the file be compiled in English Windows system. Note 3: For missing font or font encoding problems, do remember to embed all fonts into your file, especially for Asian characters. Note 4: The following procedures cannot guarantee 100% success.

(1) Choose "Adobe PDF" in the printer name box, and then select "Properties."
